

NEW SIDEWALKS ARE ORDERED

**City Council Passes Ordinances
Providing for Big Cement
District.**

SEVEN-MILE EXTENSION

**CITY AUDITOR REPORTS ON SEP-
TEMBER RECEIPTS.**

Seven miles of cement sidewalks were ordered last night by the city council, which passed five ordinances to that purpose. The first ordinance takes in both sides of all wide streets within the district bounded on the west by Ninth East street, on the north by South Temple street, on the east by the Fort Douglas reservation, and on the south by Fifth South street, except where there are sidewalks now; also on both sides of Douglas avenue between Second and Fourth South streets, in sidewalk districts Nos. 2, 4, 6, 14, 22 and 23. The extensions in these districts amount to nearly five miles.

In sidewalk district No. 21, the south side of First South street, between Ninth and Tenth West streets, a distance of 699 feet, is to be paved.

In sidewalk district No. 19, the west side of State street, between First North and Second North streets, 730.88 feet, is to be paved.

Another ordinance covers the paving of both sides of Third South street, between Second East and Third East streets, a distance of 1,320 feet, which is in sidewalk district No. 6.

The north side of B street to a point midway between M and N streets, a distance of 3,796 feet is to be paved, in sidewalk district No. 21.

Tree Falls on House.

Thomas Morris sent a communication last night to the council demanding \$500 damages done to his property at First North and Seventh West streets. Morris states that in grading in front of his house for a cement sidewalk the roots of several large trees were cut right close to the trunks of the trees, leaving them in a dangerous condition. About midnight on Wednesday a windstorm blew the trees over, smashing the fence in front of Morris' house, and one of the trees fell onto the roof of his house. The chimneys were knocked off and the roof badly damaged. Morris threatens to sue the city unless a settlement is made in a short time. The communication was referred to the committee on claims.

Charles Crismon put in a claim against the city for \$15,000, but offers to arbitrate the matter. In his communication to the council he states that he owns a twelve-acre piece of property at the mouth of Parley's canyon through which the city's conduit for the reservoir will run. He claims that it will spoil his leopard and also his gravel bed. He wants the property at \$15,000, which he holds the city to buy.

Machines on Display.

City Recorder J. B. Moreton was made custodian of the city's voting machines by a resolution, presented by Councilman Black, which was passed. The resolution orders him to put the machines on exhibition where the voters can have access to them. Two deputies will be appointed to assist him in distributing the machines and taking care of them. They will be freighted to the various voting districts not later than Thursday.

City Auditor Ralph Alf submitted a report to the council showing that \$2,012.95 had been collected and paid in to the city treasury during the month of September. Of this amount the fine and forfeitures in the criminal division of the city court amounted to \$1,347. The civil division of the city court contributed \$113.25 on which the city has a claim. The receipts of the juvenile court amounted to \$11, and \$200 was received from H. P. Clark, the fee for the land and suburban electric railway franchise. There was also \$4 collected for automobile taxes.

The 25 to 50 per cent discount on House Furnishings will be given at the I X L until further notice.

SHEEP DIPPING IS URGED

**Order Issued to Dip Rams and Re-
quest Made to Cleanse
All Sheep.**

The state board of sheep commissioners at their meeting Saturday night passed a resolution requiring the dipping of rams within thirty days of the time that they are put into the herds. All of the dipping of these rams must be under the supervision of a state sheep inspector. Reports have come to the state board to the effect that a great many sheep owners are dipping all of their sheep this fall. While it is not compulsory that this be done, as all the sheep in the state were dipped by order of the state board last spring, the sheep commissioners are pleased to see that in a great many localities throughout the state the sheep are being dipped to prevent the spread of disease. All the sheep in the state are being thoroughly inspected this fall, and the board decided that it was not necessary to make the dipping of sheep compulsory although they urged strongly that the owners dip the sheep and in this way reduce to a minimum the chances of an epidemic.

CONDUCTOR IS INJURED.

**Harry W. Logan Hurt in Railroad
Accident.**

Harry W. Logan, conductor on the Oregon Short Line railway, living at 225 West Fifth North street, was slightly injured at 9 o'clock last evening in the Oregon Short Line yards. In getting off from his train he made a misstep and fell to the ground. One leg was badly bruised, but his injuries will not prove serious. He was taken to the Latter-day Saints' hospital.

FLASHED A GUN.

William Wilson, 21 years old, flashed a gun when ordered out of a State street saloon early yesterday morning, and was fined \$5 in police court yesterday by Judge Diehl for carrying concealed weapons. The weapon was confiscated by the police.

YOU CAN TRUST

A healthy stomach with all kinds of good food for it is then in proper condition to extract all the strengthening and life sustaining qualities, but when it is weak, conditions are reversed and you become weak and run down.

CASE NEWS

Office, 2484 Washington Ave.

Ogden, Tuesday, Oct. 9.

CASE AGAINST HULANISKI

**County Attorney Must Appear to An-
swer Accusation on
Oct. 17.**

Attorney J. D. Skeen presented the accusations against County Attorney E. T. Hulaniski to Judge Howell in the Second district court yesterday. The court ordered the case filed last evening and issued the necessary citation, returnable Oct. 17.

WILL KEEP THE LIGHTS.

**City Council Will Continue Illumina-
tion Begun During Convention.**

The city council last evening decided to continue the use of the several thousand lights for illuminating the business part of the city until April 1 next. These lights were originally placed for the United Commercial Travelers' convention last June. The council also decided to appropriate \$235 to re-enforce the wires and lamps and provide the necessary cars for winter weather.

The railroad committee reported that Superintendent E. C. Manson of the Union Depot company promised to see that the five-minute obstruction rule on railroad crossings was observed. City Treasurer R. A. Moyes in a communication stated that the work of that office was so heavy as to require an additional clerk. Considerable discussion ensued, and the matter was finally referred to the finance committee. While awaiting the report from that committee temporary help will be provided.

The Retail Liquor Dealers' association said they were helpless under the ordinance providing a penalty for the sale of liquor to minors. They ask that an ordinance be passed making it a punishable offense for minors to make complaint against a liquor dealer after they had represented themselves to be adults. The matter was referred to the license and laws committee.

Charles Gloyd, who was formerly city engineer and now is a contractor, was planned to the council that he had been discharged by the city engineer without just cause, and asked the council to institute an investigation. The request was filed without action. It appears that Gloyd was discharged, according to his own statement, for condemning some concrete work done by one of the local construction companies. He claims that the work was not up to the standard, and he positively refused to pass upon it favorably just because it was the work of the city engineer.

INFRINGE ON HIGHWAY.

**Rapid Transit Narrowing Road in
Ogden Canyon.**

At the session of the county commissioners yesterday Commissioner W. G. Wilson called the board's attention to the fact that the Ogden Rapid Transit company is infringing on the county highway in building a line through the canyon. A short time ago the company announced its intention of building through the canyon, and a few days ago it commenced to extend its line into the mouth of the canyon. The space between where it started to lay rails and the fence running along the opposite side of the road is not sufficient for two teams to pass, making the place decidedly dangerous. The matter was referred to Mr. Wilson to see that the county's rights are properly protected and that there is no trespassing.

WEBER'S FRUIT SHIPMENTS.

**At Least 120 Cars Sent From This
County Alone.**

It is estimated that at least 130 cars of fruit in carload lots were shipped from Weber county this year. About seventy of this number came from North Ogden and Pleasant View, the others being distributed throughout the county. These carload lots have been mostly assigned to Minnesota, Iowa, Nebraska and Missouri. In addition to this there are equally as much shipped out in smaller shipments to various points.

Weeds Cover Old Track.

Superintendent E. C. Manson, Trainmaster A. W. Wright and Resident Engineer T. E. Fitzgerald have returned from a trip over the Salt Lake division of the Southern Pacific where they inspected the bridges along the line. All were found to be in good condition. The trip over the old line around the north shore of the lake was made Saturday. Since this line has been abandoned for through service the weeds have been permitted to grow between the tracks to such an extent that it was found necessary to divert the through traffic over this route, considerable difficulty would be experienced in getting the freight trains through.

First Year's Product Sold.

It is expected that the new Union Portland Cement plant will have its plant ready for operation by the first of the year. This is considerably earlier than was at first anticipated. The company has already received orders sufficient to take practically all of the first year's run.

Altitude Makes Traveler Insane.

Edward Flaherty, on his way from the coast to New York, was taken off a train here yesterday suffering from an attack of insanity. It is supposed that his mind was affected by the altitude, and that he will be able to resume his journey in a day or so.

Bigelow for Senatorship.

The name of Archie P. Bigelow is being urged for head of the Democratic ticket this fall. It is conceded that Mr. Bigelow would make a good run for the place and also would be able to land the state senatorship if nominated.

Ogden Briefs.

The funeral of J. S. Bauscher will be held at the Ritchey funeral home at 2:30 o'clock tomorrow afternoon.

The body of Lewey Ellis, who dropped dead in the Ogden house Sunday, will be shipped to Racine, Wis., today for burial. A marriage license was issued yesterday to Joseph Cook, aged 21, and Miss Gladys E. Selman, aged 15, both of Salt Lake.

Abbott Maginnis left yesterday for Reno, Nev., where he goes to hold down the position of telegraph editor on the Reno Gazette for a couple of months.

Jacob Venansky and Mrs. Clare Bell Meyers, both of San Francisco, were last evening issued a license to wed. They were married by Judge J. A. Howell.

A buggy in which were seated Mr. and Mrs. George Yearley was struck by a car at Five Points yesterday. The buggy was smashed, but the occupants escaped injury.

Chief Inspector J. A. Davis of the Pullman company, with headquarters in Chicago, who has been inspecting the company's stock in this city, left yesterday for Denver. He was accompanied by his son, who is the local Pullman ticket agent.

The Carnegie library board met last evening and discussed ways and means for purchasing a number of children's books. The circulation of these books has dropped off in the last month on account of no new books. No definite conclusion was arrived at.

The remittitur in the case of J. D. Skeen vs. City Councilman William Craig,

BANKS' MILLINERY.

"College Girl" Hat, made of poplin silk, with stitched brim, trimmed with stitched band of poplin silk and bow on left side of crown. In navy, brown, cardinal and champagne. At Banks', 116 So. Main, for 50c.

from the supreme court, ordering a retrial of the case, was received here yesterday. As the trial calendar is made up well into December it is not likely that the case will be called this year.

In the municipal court yesterday the case against A. L. Davis, charged with conducting and operating a place resorted to for gambling, was dismissed for lack of evidence to convict. The witnesses denied that they had gambled for money, and all the officers saw were chips.

MEN RECEIVED ONLY \$1.25 A DAY

**Strike of Mill Hands at Buck-
ingham, Quebec, Results
in a Fight.**

Buckingham, Quebec, Oct. 8.—Two men were killed and a dozen wounded in a conflict between striking mill hands and provincial police at MacLaren's saw mills here this afternoon. The drastic measures taken by the authorities to quell the riotous strikers has had a telling effect and no further trouble is expected.

The Dead.

President Belanger of the Mill Workers' union, leader of the strikers; he was 30 years old and married.

Xavier Therieau, a mill hand; leaves a widow and five children.

Five of the wounded men are in a serious condition.

The strike at the mills began on Sept. 15. The workmen's strike fund and their small savings had vanished and they had begun to feel the pinch of hunger and cold. The announcement made today that the mill owners would import labor and start the mills put the men in a desperate frame of mind. A meeting was called, at which incendiary speeches were made. About the middle of the afternoon the men decided to clear out the strike breakers. A mob of 200 men armed with revolvers and other weapons rushed up the hill leading to the mills.

Opened Fire at Once.

The mill owners, who had looked for violence, had posted forty detectives and special policemen on the outskirts of their property. There was no parleying. The first rush of the strikers was met by a volley from the revolvers in the hands of the police. Belanger, who was leading the mob, fell at the first volley, with two bullets in his head. He died where he fell. The strikers sought shelter and opened fire on the police, many of whom were hit.

A desultory fusillade was kept up for fifteen minutes, the strikers standing their ground, and the police remaining behind their hastily constructed barricades. It was apparently by mutual consent that hostilities were suspended, while both sides removed their wounded. As there appeared to be a likelihood of a renewal of the trouble an appeal was sent to Ottawa for troops. They arrived tonight and went into camp near the lumber yards. Alexander and Albert MacLaren, members of the firm, fought beside the police in the battle with the strikers.

Seriously Wounded.

So far as could be learned tonight the most seriously wounded are:

Felix Fauvalle, shot through abdomen; will probably die.

Baptiste Blenow, shot through head and arms; serious.

Felix Laclotte, shot in arm.

Abelard Hamelin, four bullet wounds.

Edward Miner, shot in head.

Xavier Tremblay, shot in arm and both legs.

Isidor Renaud, wounded in back.

Herbert Berier, Montreal police contingent, shot in breast; fatal.

Frank Kernan, chief of Buckingham police, and his deputy, James Kernan, Peter Pickard, Leyotte and several others.

The strikers declare they will elect another leader and continue the strike. Their former wages of \$1.25 a day, they declare, will not keep them and their families alive.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which nothing but an inflamed condition of the mucous surfaces.

We will cure One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THE ONLY ATLAS HAVING NEW MAPS UP-TO-DATE.

Hammond's Pictorial Atlas is Indispensable!

AN ATLAS, to be of service, must be up-to-date—compact. This Atlas and Gazetteer of the world is newer, by five years, than any publication of like nature. In size it is 10 1-4 by 13 1-2 inches. In scope, gigantic. It contains 256 pages of solid knowledge.

In the last half decade the world has moved forward swiftly, and changes of vital moment have been wrought. The alert business man or painstaking teacher has no use for a mediocre, cumbersome atlas, telling only half truths. He wants to know the situation today. Thousands of new towns have sprung up within this last year. New railroads have been finished. He wants a complete compendium of geographical facts to date. These facts are easily accessible in this exhaustive work because of a simple system of indexing.

Of the contents of this invaluable volume, the following features must command interest:

The Gazetteer

—Contains an alphabetical index listing completely the towns of the world, including all places in the United States of over 500 inhabitants, and giving official censuses as late as 1904. Also a Topical Cyclopaedia of Geography, alphabetically indexed (occupying more than 100 pages), containing a wealth of entirely up-to-date information about mountains, island, rivers and other physical aspects of the globe.

How Good Food may Turn to Poison.

DEACAY is not digestion, you know, even when it takes place in the stomach. Food decayed in the body after being eaten is as dangerous to health as food decayed before being eaten.

Food nourishes or poisons, just according to how long it remains in the Bowels undigested.

Most of the Digestion occurs in the thirty feet of intestines.

They are lined with a set of little mouths, that squeeze Digestive Juices into the food eaten.

The Intestines are also lined with millions of little suction pumps, that draw the Nutrient from Food, as it passes them in going through.

But, when the Bowel-Muscles are weak, the Food moves too slowly to stimulate the little Gastric Mouths and there is no flow or too little flow of Digestive Juice, to change the food into nourishment.

Then, the food decays in the Bowels, and the little suction pumps draw Poison from the decayed Food, into the blood. Instead of the Nutrition they should have drawn.

Now, Cascarets contain the only combination of drugs that Stimulates these Muscles of the Bowels and Intestines just as a Cold Bath, or open-air Exercise, stimulates a Lazy Man.

Cascarets therefore act like Exercise. They produce the same sort of Natural result that a Six Mile walk in the country would produce without any injurious Chemical effect.

The Vest Pocket Cascaret Box is sold by all Druggists at Ten Cents.

Be sure you get the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "CCC."

THE ILLUSTRATIONS—form a charming collection of photographic reproductions that are properly called "The World in Half-tone."

These beautiful pictures range in size from two inches square to half a page. They appear on an average of two to a page, and a number in their midst innumerable portraits of types, and some of the rarest and fairest views in the world.

THE MAPS—are clear, accurate and by reason of their delicate, harmoniously blended coloring are of rare beauty. Boundaries are distinct. The names of towns are printed in graded type indicating their size. A unique marginal index of great value shows the area of each state and its population by sex, race and color. Towns are arranged in order of their size, and counties alphabetically.

TYPE AND BINDING—The type throughout is large, clean cut and legible, and the work is attractively and durably bound in cloth.

THE PICTORIAL ATLAS.—in short, is so compiled as to be absorbingly interesting, entertaining, instructive and invaluable in office, study or school room.
